RECENT PROJECTS

Kijiji Rental Mapper

kijijimapper.herokuapp.com | [git](#)

A fullstack application developed using React.js and Material UI for a high-fidelity UX/UI design and Node.js and Express.js server to create an API used to fetch rental information for a client.

Toronto Social App

mapto.herokuapp.com | [git](#)

A MERN stack application focused on using MongoDB and Mongoose ODM for storing user generated data, and then displayed on a map of Toronto. Utilizes Passport for user authentication, algorithms for trending posts, and EJS for displaying all of the data.

WORK EXPERIENCE

GENSLER

SEPT 2018 - PRESENT

Technical Designer

Collaborated on a daily basis with team members, contractors and clients to design and build commercial architectural projects throughout North America. Responsibilities include teaching new hires modeling softwares, interior and exterior design, visualization, diagram and graphic design, client presentations, spatial planning, and documentation.

HOFFPAUIR STUDIO

MAY 2018 - AUG 2018

Architectural Designer

Design and visualization of projects in Louisiana, US, ranging from office rooftop terrace to a community church masterplan.

EDUCATION

LOUISIANA STATE UNIVERSITY

AUG 2013 - MAY 2018

Bachelor of Architecture, Professional Degree
